

Promoter Guide

Build your list. Climb the tiers.

WELCOME

You're a Luna Group Promoter

As a Luna Group promoter you get people onto the guestlist at **Eclipse, Eclipse AfterDark, Su Casa Brisbane and Pump Nightclub** using your own link. The more people you get through the door, the higher you climb and the better your rewards. Everything runs from your phone at **promoter.lunagroup.com.au** — no app to download.

The golden rule

You're rewarded for people who actually show up. A guest only counts toward your leaderboard and tier once they're **checked in at the door** — registering isn't the same as attending.

STEP 1

Getting Started

1. **Apply** on the signup page and choose whether you're a Promoter, DJ or Staff member.
2. If someone referred you, enter their **referral code** on the form.
3. Once the Luna team **approves** you, **confirm your email** and log in.

Your **home page** is your control centre — it shows your unique link, your QR, your current tier, and where you sit on the leaderboard.

STEP 2

Your Link & Sharing It

Your personal link is how you get credit — anyone who registers through it and shows up counts as yours. From your home page, copy it or tap the **social buttons** (Instagram, TikTok, WhatsApp, Messenger, Facebook, X, email). For Instagram & TikTok the app copies a ready-made caption + link to paste into your story or bio.

- Keep your link in your **Instagram / TikTok bio** so it's always there.
- Post it in **stories** before every big night with the date & venue.
- Send it in **DMs and group chats** — personal invites convert best.

Everyone needs their own QR

One QR per person, per night. Don't share a guest's QR around — send friends your link so they each register and get their own (and each one counts for you).

HOW IT WORKS

What Actually Counts

1. A guest taps your link and picks a **venue and date**.
2. They enter their details and get a **personal QR** — on screen and by email.
3. They show the QR at the door and reception **scans them in** — that's when they count for you.

Registered vs Checked in

Lots of people register and don't turn up. Only **checked-in** guests move your numbers — focus on people who'll genuinely come.

REWARDS

Tiers & Rewards

Your tier is set by how many guests you get **checked in** each calendar month, and the perks apply **across all Luna venues**.

Tier	Checked-in / month	What you get
Bronze	0 – 19	Free entry to all Luna venues — yourself only .
Silver	20 – 49	Free entry to all Luna venues + 1 guest (not valid on headliner / special event nights), plus a Luna Eclipse drink card.
Gold	50+	Free entry to all Luna venues + 2 guests , including headliner / special event nights, a \$100 drink tab every night , and a promoter group dinner once a month.
Elite	Invite only	Handed out by management to top performers — not applied for. Self + 4 entry everywhere including headliners / special events, host table access, a \$250 monthly venue voucher , quarterly bottle service, private event invites, and a direct line to the team.

INVITE ONLY

KEEP YOUR TIER

Staying Active

Tiers are earned, not kept for free. If you go quiet, you slide back down.

- **No activity or guests for 30 days** — you drop a tier.
- **Another 30 quiet days** — you drop again.
- **90 days total inactive** — you're removed from the system and re-register from Bronze.

One registration that checks in is enough to reset the clock, so keep at least something moving each month.

EARN MORE

Refer Other Promoters

Refer a promoter, get +2

When someone signs up using **your referral code** and is approved as a promoter, you automatically get **+2 checked-in credit** toward your monthly tier. Share your code from your home page. The +2 lands once they're approved — so back people who'll actually promote.

PRO TIPS

Get More Through the Door

- **Give a reason to come** — the DJ, the event, the vibe, not just "on the list tonight".
- **Time it right** — stories the day of and a few hours before doors convert best.
- **Follow up** — remind the people who registered to actually show; only check-ins count.
- **Look after your guests** — they can flag a birthday/occasion when registering and the team will take care of them.
- **Check What's On** in your account for the latest events to promote.
